

TWO BIRDS

ONE STONE

VIN DE FRANCE

This is the tale of Two Birds. The first comes from New World distant horizons, the second is born in the heart of the Old-World winemaking area. Despite their geographical distance, these Two Birds share one thing in common: their love for outstanding wine and great terroirs. This tale reflects the story of the head winemaker: after traveling the world, she has now settled back in France to create this range of extraordinarily fruity and approachable wines.
